Why choose First Response Training?

Proven Experience

We have more than 26 years' proven experience in delivering high quality training across the UK, and deliver contracted training programmes for national adult social care providers.

Dedicated Account Management

We offer dedicated personal account management from a named account manager and added value services, including our Secure Online Client Portal.

Flexible Training Solutions

We can provide training via classroom-based sessions, live webinars, eLearning programmes and distance learning manuals. Training is available 7 days a week, and can be tailored to meet your needs.

Skills for Care Endorsed Learning Provider

We are a Skills for Care Endorsed Learning Provider, approved for our classroom, webinar and eLearning courses. We also hold a number of other accreditations, approvals and contracts.

At First Response Training, we deliver a portfolio of over 200 high quality training courses, delivered by a team of over 100 trainers operating 7 days a week, including evenings, wherever you are based

Social Care Training

We have developed our expertise in Health and Social Care training over more than two decades, training thousands of learners in the sector every year.

Our courses guide workers in the Health and Social Care sector along the training pathway, from induction right through to higher level and special focus training. All trainers teaching Health and Social Care topics are carefully chosen based on their relevant experience.

Our Health and Social Care courses are carefully developed by curriculum experts to ensure the highest quality, up-to-date training for care staff. All courses are mapped to national standards, legislation and guidance.
